

This is impromptu, unscripted, on the fly, conversation style professional learning opportunity.

At an unconference or edcamp there are several unscheduled discussions that are planned out on the spot, since #coffeeEDU is a subset of an unconference it is one discussion as opposed to an entire conference of discussions.

Be prepared to discuss one unique or innovative idea you're using in your classroom, but be open to the group wanting to discuss something else.

If you need some help getting the conversation going, there are some table talk cards prepared for you!
